A.Y.C.E. PRODUCTIONS

EVENT DESIGN & PRODUCTION

FROM VISION TO DOORS.

With a decade in entertainment and event production, we deliver turnkey design and production solutions: 3D conceptual rendering, previsualization, technical drafting, asset creation and full production and show execution.

DESIGN

3D Rendering & Previsualization

Full-scale 3D renderings and animations built in Depence, Twinmotion and Unreal Engine, for client pitches and approval.

Lighting Design

Lighting that makes the crowd feel the show, built around the music and the space for every wow.

LED Content & Media

Custom video content designed and mapped perfectly to any LED wall, projector, or screen

Technical and CAD Drawings

Lighting, rigging, LED, power plots and fabrication drawings in Vectorworks, AutoCAD and SolidWorks. Delivered as PDF, DWG, DXF, VWX, MVR. Engineer and fabrication ready.

Site Layout

To scale site plans covering stages, FOH, activations, vendor areas, crowd flow, and ingress and egress, ready for fire marshal review, permitting and advancing.

Graphic Design

Event branding, signage, and content graphics, designed and delivered ready for print or web.

PRODUCTION

Built for the Build

Our real-world touring and festival experience means every design is drawn to load in fast, build clean and strike efficiently.

Show Files & Programming

Show ready grandMA3, Resolume and Pangolin Beyond files for lighting, video and lasers, programmed in previz.

Production Management

We coordinate with every department, from rigging and staging to lighting, video, scenic and the venue, so the build matches the drawings and the vision.

Show Operators

Experienced lighting, video and laser operators to run your show from the first cue to last.
